

2023 CWWC Sector Trainings

Learn about exciting opportunities
in Construction, Tech, Healthcare and Manufacturing

Come and hear about what it takes to get into high wage and high growth quality jobs in the region! Learn about the prerequisites, competitive attributes, and how to best assess and support your jobseekers into a good career! Learn about resources available in the community and hear from past and current program participants about their pathway into our target sectors. Space is limited and will fill up fast! These trainings are specifically focused on: the 101 of how to best qualify for a career, current needs and demands within the target industries; current and future training opportunities; labor data around each target sector and building relationships with industry champions. If you are interested in attending, please register immediately to reserve your spot.
